**Speakers:**

- **Mr. Henning Schulz**, former mayor of the German city of Gütersloh, provides an overview on disaster management from a municipal viewpoint and reports about his experiences with disaster management during the Covid-19 pandemic with innovative solutions.
- **Mr. Felix Richter**, CEO of Kompetus Consulting, with more than 20 years’ project experience in management consulting for the public sector and former trainer for the Academy for International Cooperation (AIZ) for experts travelling to fragile countries, will provide an overview of crises management planning and execution for municipalities from a practical perspective

**The following questions will be discussed in the workshops:**

What are typical challenges on a municipal level? | How to prepare for disasters? | How to set-up a disaster management, especially with low (human and financial) resources?
